Reference

The requests for additional copies of the information reports have shown a considerable decrease; both in the ones that have been published subsequent to 1 October 1954 and the ones published prior to 1950. In the first instance, this is the result of a memorandum to the requestors notifying them that we no longer furnish the current reports. In the case of the information reports published prior to 1950 the decrease in the number of request undoubtedly ties in with the retirement of the intellofax cards by OCR.
